Introduction

Preface

The report in front of you gives you an insight into your areas of interest and your preferences regarding work. In the questionnaire you were asked to choose between a number of alternatives that represent an area of interest. This can be the starting point for a career plan: it indicates your areas of interest. This is not an absolute piece of advice, however. It is possible that there are other reasons, such as your diplomas or your work experience, that make certain areas particularly appealing to you. The areas of interest fit in with the classification of college training and university studies in The Netherlands. When you are thinking about starting to study, you should choose something which connects with your area of interest. We would like to remark, perhaps superfluously, that your area of interest does not necessarily match your suitability.

This report is an aid to self-insight. Reports regarding psychological evaluation remain valid for no more than two years and should be destroyed after that. Your advisor is obliged to ask for your permission to confer with others about this report and the conclusions drawn from it. The critical opinion of both you and your advisor remain important. We cannot accept any responsibility for the accuracy of these descriptions and conclusions.

Disclaimer and copyright

In accordance with NIP guidelines, this report is valid for a maximum of two years as people may change over a period of time.

This automatically generated report describes an individual's personality traits as derived from the answers to the questionnaires. The answers are compared to those given by a large group of other people. The subjective nature of assessments based on questionnaires should be taken into account when interpreting the results. The test supplier can therefore not accept responsibility for the accuracy of the results and descriptions.
